Nov. 11, 2004

Dear Doc:

Just wanted to drop you a note to thank you for your expertise and wonderful spirit. I guess it's been a about a month since my last laser treatment and massage therapy. I can report back to you with confidence that my foot is again at 100 %.

I slowly returned to jogging last month and now can say I can easily manage my three-mile jogs, four times a week. That's where I was when my foot went bonkers in late July. I also was able to walk an entire 18 holes on Nov. 3 for the first time in three months. Man, did that feel grand.

So in closing, thanks a bunch to you, Andrei, Regina, Anna and Matt for your care. I will continue to recommend your services and if anything else goes wrong with my dumpy body I will be in your office swiftly.

Cheers,

Tim W.
